

Viewers Love “MAKING IT!”

“...What a wonderful way to encourage not only the small business owners, but also the community that backs them up and helps them to be successful! I am a small business consultant. My specialty is teaching people how to run the businesses they have begun. We need good solid small businesses. They are role models and community pillars. Thank you for showcasing their success stories on your program.”

“I personally watch your show, when possible, to help myself keep focused on my business plan. In today’s world of many negative visual images, I often find myself searching outside traditional borders to find positive foods for thought...Please tell your sponsors that they are making a tremendous contribution into this country’s future. You are jump starting many dreams into action. It puts a smile on my face to see proactive companies, such as you sponsors, supporting the power of innovation though entrepreneurs...As a foreign born U.S. citizen, I am overwhelmed by the many opportunities available to the average person in this country, given the proper awareness and education.”

“I would like to congratulate you on nine years of extremely informative television. While other programs lull people into a false sense of security with regards to business endeavors, yours gives the viewers “the real deal from people who are actually in the trenches... Several of your shows have highlighted many of my friends and business associated, and you show has helped increase their customer base tremendously.”

“The thing that I like best about the show is the resource information that you provide. It is very helpful to learn about organizations that are there to help you. Your show educates your audience about resources as well as provides information.”

Troy L. Goats

“Another great show! I really like those long shot ventures; they provide the greatest energy rush for me, personally. The support information was outstanding – keep this feature rolling... You can count on me to stay tuned as long as you mission remains a positive one. We need more shows of this nature... I hope these words of encouragement are representative of those necessary for keeping “Making It!” a viable resource for education and inspiration – a most needed and noteworthy course, in my opinion. It’s a rare occasion, for me at least, to see so many smiling faces – all possible because of self-fulfillment. It’s the key to real success – everything else is compensation.”
